

ABOUT THE *IN-ENGLISH* WORKBOOK

SITE LICENSE

The Site License for reproduction of the *In-English* Workbooks was initiated for a number of reasons.

- & Owning a Site License reduces storage space and permits “Just In Time” inventory.
 - Excess print inventory does not sit on shelves.
 - The client and students never have to be without Workbooks due to time lags from requisition to purchase order to vendor to warehouse to school site to classroom.

- & The license arrangement is incredibly efficient.
 - Schools have the option of selling their production at a price which recovers the school’s costs and produces a low cost to the student.
 - The License increases the program’s productivity and flexibility to include the ability to use the same exercises repeatedly, if needed, and to provide an inexpensive basis for producing a student master portfolio of work, if desired.
 - Permits the licensee to advertise its school or program by customizing the Workbook covers.
 - The fee for the License is \$292.50 per volume per year, or \$1,462.50 for all 5 volumes per year. The License includes the right to reproduce unlimited quantities for one year. Additional sites are \$20 per volume, or \$100 per site. The right to reproduce unlimited quantities on an annual basis is less than the purchase of 100 \$15.00 texts/workbooks.
 - The fee is an annual fee. The licensee receives a new Blackline Master or a CD each year. From time to time, changes are made and the licensee automatically receives the changes.
